EXAMINER'S AMENDMENT

- 1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with L. Galvin on 9-29-2003.
- 2. The application has been amended as follows:
- In claims 16, 19, 21, 22, 23, "extraction operation" has been replaced —extrusion cycle—.
- In claim 17, line 3, "(Bandury®-type)" and also "(Intermix®-type)" has been removed from the claim.
- In the specification, page 6, line 9, after "thereof", —(step 5)— has been added.

Reasons for Allowance

- 3. The following is an examiner's statement of reasons for allowance:
- The closest cited art—British Reference (GB 1,535,545) and Edwards (U.S. 5,865,535)—fail to anticipate or render obvious, alone or in any proper combination, the steps (d) and (e) with the methods of claims 1 and 14. In these steps, the semi-finished product, which

is made in a process that includes a mixing and an extrusion cycle, is classified based on the attributed evaluation and then successive processing steps for the semi-finished product are determined based on the classification. In GB '545, a data acquisition method is taught for determining parameters for subsequent batches—but not for the same semi-finished product. Edwards teaches only real-time control of the mixing cycle.

• Claims 16, 19, 21, 22, and 23 were amended to correct for antecedent basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
